

Source: USCIS. Data as of October 29, 2019. **Notes:** All data are based on approved petitions during the fiscal year. Per USCIS best practices, units of less than 10 are masked so as to limit the possibility of the de-anonymization of data. "D" represents data withheld to protect privacy. "H" replaces a value from which the value of D in the same column or row could be deduced. "Employer Industry" is based on the employer NAICS code, not job code. Some employer industry information is missing from our data system and thus is marked "Not Recorded". Employers with missing tax identification numbers in our system were excluded. Counts of approved petitions do not include individuals who obtained L classification through consular processing under a previously approved blanket L petition. While some company names may appear multiple times, USCIS enters data as listed on the petition and does not combine companies, even where the names are the same, because in all cases the employer tax identification numbers are different on the petition. The L-1A nonimmigrant classification refers to intracompany transfers of corporate managers and executives. The L-1B nonimmigrant classification refers to intracompany transfers of employees who possess "specialized knowledge." The LZ classification refers to "blanket" L petitions and may be used by entities involved in commercial trade or services. While the term "L-1" is used for visa issuance and admission purposes, USCIS uses the "A" and "B" distinctions internally for statistical and other purposes. A very small number of L-1 petitions are not specified as A or B in USCIS electronic system of record, thus is reported as "L-1". The L-1 petition may be filed to sponsor an alien currently in a different nonimmigrant classification, or with no classification if outside the U.S., for an initial period of L-1 employment, or to extend or change the authorized stay of an alien currently in L-1 status. An employer may file an L-1 petition to sponsor an alien who currently has L-1 nonimmigrant status working for another employer or to amend a previously approved petition. Due to the transactional nature of the report, revocations, appeals, and consular returns may cause the counts of approved petitions to change slightly over time.
